As you may know, ASMS is working diligently to reduce the volume of our inventory of records in the records center. Part of that volume is 10 boxes of 104(e) response from one of the PRPs, possibly related to the NPL listing process. My understanding is that Toeroek scanned the box contents under the ES contract and provided large PDFs to Mark Chalfant & Scott Wilder. We have a coding sheet in the records center for 8 of the boxes that designates the 8 boxes as cbi claimed & enforcement confidential.

We need some help sorting out / coding the other 2 boxes and preferably finding the CDs. Who is the most appropriate contact?
